

# UFIT Academic Technology

## Video Production Specialist Internship

**Hiring Manager Name & Title:** Gregory D'Angio, IT Manager

**Department:** Academic Technology - Academic Media Production

**Title of Internship:** Video Production Specialist

### **Brief Description of Internship (please include physical location of the job):**

Come join the Center for Instructional Technology and Training video production team for the Summer 2022 semester internship. Learn how lecture videos are developed, recorded, edited, delivered, and provided to students. Get a 360-degree understanding of how a professional studio is built and operated from the perspective of the people behind the cameras. Learn how a field video is shot on UF campus. Get a better understanding of how video and audio is handled in an outdoor environment. You will learn how to use digital cameras, lavalier mics, teleprompters, VR/AR/MR, 360 cameras, video capture software, and what it takes to become a video star on campus. Internship will take place in The Hub 1736 Stadium Road on UF's main campus.

### **Specific Duties:**

- Learning signal flow and equipment setup for studio recordings
- Learn how to set up and use a professional field production kit
- Learn how UFIT's video team edits and delivers content to faculty

**Hours Per Week:** 15 - 20 hours per week

**Hourly Rate:** \$10 - \$12 per hour

**Work Location:** 1765 Stadium Road – The Hub – Intern will support both Studio and Field production

### **Qualifications Needed:**

- Desire to gain knowledge of the video production process including: DSLR cameras, 3-point lighting, professional audio, and Adobe editing software
- Ability to lift 40 pounds and manage themselves in a warm outdoor environment

### **Learning Objectives:**

- Understand how a field production is developed, from idea to delivery
- Learn the responsibility of the client's needs and produce the quality results they seek
- Gain a complete understanding of how a professional video studio is built including understanding signal flow of complex video capture systems
- Demonstrate openness, inclusiveness, sensitivity, and the ability to interact respectfully with all people and understand individuals' differences to communicate complicated or technical ideas to a broad group of people
- Develop an understanding of career field of interest, including the skills, responsibilities, and career trajectory of professionals; specifically, by creating and editing web content

Final Project: The interns will both be asked to complete a similar project to encourage collaboration and teamwork. The final project will be to develop a video using one of 3 techniques. 360 Video, Field Production, or Studio Production. Once the intern has chosen a style, they will prepare a 1-2-minute presentation about what they have learned during their internship and a 1-2-minute video promoting the UFIT CITT AMP brand.
