

MULTI-FACTOR AUTHENTICATION AT UF

[IT.UFL.EDU/GET-CONNECTED/MULTI-FACTOR-AUTHENTICATION](https://it.ufl.edu/get-connected/multi-factor-authentication)

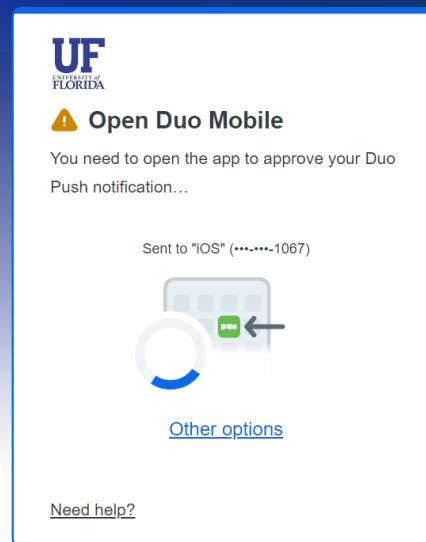

WHAT IS MULTI-FACTOR AUTHENTICATION?

In 2020, UF mandated the use of multi-factor authentication for anyone accessing university-wide systems.

For UF authentication, you'll verify your identity in two steps. First, you must login with your GatorLink credentials. The second verification step will be with your device, Touch ID, a token, or a passcode through Duo. — UF's multi-factor authentication vendor.

DUO UNIVERSAL PROMPT

Download the **free** Duo mobile app for quick access to UF's authentication process. The app is available in both the Apple App Store and Google Play.

USING DUO TO ACCESS UF SYSTEMS AND SERVICES

- **DUO PUSH** (Recommended. It's the quickest way to authenticate) With a Duo Push set-up, you'll get a pop-up notification on your mobile device. Select "Accept" and you're good to go.
